

ScentLogix™

THE WORLDS FIRST SUITE OF ODOR REFERENCE MATERIALS SPECIFICALLY ENGINEERED TO SERVE AS SCENT TRAINING AIDS FOR HIGH PERFORMANCE DETECTOR-K9 IMPRINTING, TRAINING AND CERTIFICATION ACTIVITIES

"At last, a standardized scent-training aid!"

- 2022 Price List -

REPLACEMENT AIDS, SCENTKITS, BUNDLED KITS & KITSETS

Industry-leading Nanotechnology-Enhanced Formulation! **THESE ARE IMPRINT-GRADE, ODOR-CORRECT TRAINING AIDS.** Each pouch has a surface area equivalent to the size of 1/6 of a soccer pitch and provides up to 2 years of quality-consistent odor. Final odor longevity depends on storage and usage conditions. **FOR PROFESSIONAL USE ONLY.** All prices are USA Prices quoted in US\$. PRICES IN OTHER COUNTRIES MAY DIFFER. PLEASE CONTACT REGIONAL DISTRIBUTOR FOR DOMESTIC PRICES.

The Replacement Aid:

This is our bare-bones, stand-alone, scent-reference and K9-training aid that comprises of no accessories.

Recommended for use by scent-practitioners that are already accustomed to our products and still have our accessories from previous product use or purchase. Remember, WE ADVISE THE USE OF SCENTLOGIX-BRANDED ACCESSORIES ONLY. Using ordinary canvas bags will make your K9s alert on canvas while using common metal stash boxes and other accessories with undocumented success such as the TADD™ will make your K9s understanding of odor imperfect.

The 1-Aid Handler-Practitioner ScentKit (Single-Aid Kit):

This is also known as the “handler’s kit” because it is designed for practitioner-handlers with one or two dogs that have already been imprinted, or K9 programs for which there is no need for K9 imprinting. A 1-aid kit is designed to act exclusively as a field-training aid (maintenance training aid).

It comprises of one scent-reference training aid and all accessories needed to consistently and effectively produce optimally-imprinted K9s. These include: (i) 1 x perforated below-ground SL-branded scent-pipe (SLK-SB2); (ii) 1 x perforated above-ground SL-branded scent pipe with a magnet (SLK-SB3) OR 1 x above-ground scent cage with a hook (SLK-SB1); (iii) 1 x training aid-protective outer bag with a Velcro closure (SLK-PB1); and, iv) 1 x scentable scent-training towel (SLK-TOWEL), all of which are encased in a clear, zipper-sealed pouch.

All these accessories are specifically designed to improve user-experience and maximize product performance. Our SLK1-PB1 scent protective bags, for example, are the industry’s only scent-holding bag with zero odor.

The 2-Aid Trainer-Practitioner ScentKit (Double-Aid Kit):

Otherwise known as the “Trainer’s Kit”, it is designed for practitioner-trainers that both imprint and train K9s. It comprises of 2 individually packaged scent-reference K9-training aids plus a full set of training accessories described above, all enclosed within a rectangular, gasketed air-tight container. One of the scent-reference aids is supposed to serve as the Trainers’ “Gold Standard Odor Reference Material” to be used exclusively for imprinting, while the 2nd scent-reference aid serves as the maintenance-training aid for field-training activities.

EXPLOSIVES DETECTION TRAINING AIDS AND SCENTKITS

PRICELIST: REPLACEMENT AIDS

Non-accessorized odor reference materials / scent-training aids used to replace the exhausted/expired ScentKits of existing product users. It is recommended that new users purchase our 1-aid ScentKits to take advantage of the additional benefits of fresh accessories.

EXPLOSIVES DETECTION TRAINING AIDS AND SCENTKITS

PRICELIST: THE “TRAINER-PRACTITIONER” 2-AID SCENTKITS

The 2-aid kit is for the professional trainer-practitioner who would naturally need two odor-reference training aids (one exclusively reserved for imprinting and the second used for field/client maintenance training) within their normal daily routines, or for the handler-practitioner/agency with more than 3 K-9 partners. It’s also better value for money than the 1-aid ScentKit since the additional aid also provides additional savings!

Remember - Our ScentLogix-decaled waterproof, crushproof, travel cases are ideal all-in-one storage solutions for that trainer/handler-practitioner that is always on the go by road, rail, air or sea; nationally or internationally.

“SIGNATURE-SERIES” BUNDLED DETECTOR-K9 SCENTSETS AND KITSETS FOR THE COMMITTED HANDLER- (HP) AND TRAINER (TP) PRACTITIONER

Our bundled ScentKits were specifically configured to bring additional savings for the practitioner that is fully committed to using 5 or more of our single- or double-aid kits for their detection activities. We have made sure that our trainer-practitioners (TP) receive additional savings too. Our bundled ScentKits were developed to provide additional savings for the trainer that is fully committed to using defined subsets or the full range of our products for their on-site or on-the-go imprinting, training, seminar and certification activities. Fashionable waterproof and crushproof, rollable and non-rollable hard-case Kit configurations are also available for the on-the-go practitioner on both local and international travel assignments.

The ScentLogix-K9™ T-Series Bundled KitSet is a revolutionary collection of non-hazardous certification-grade scent-detection ScentKits specifically formulated, configured, packaged for unparalleled effectiveness in the imprinting of green-dogs and the maintenance training of explosives and narcotics detection K-9’s within Military, Police, Customs, Fire, Transport, Border, Homeland Security, and other “Failure-Unacceptable” Working Dog Programs

SCENTKITS - PRICELIST:**

Our collection of operationally-tested, first-in-industry training aids are developed to open up new business opportunities to both new and existing members of the detector K9 profession. These aids are sold in single-aid solid-case ScentKit configurations. No replacement aids are available as the accessories expire when the aids expire.

Item	Replacement Aid	1-Aid KIT	OTHER SCENTLOGIX SCENT-TRAINING AIDS*
SLK-MLD	-	\$299.98	MOULD (MOLD) DETECTION SCENTKIT
SLK-BB	-	\$389.95	BED BUG DETECTION SCENTKIT
SLK-TM	-	Coming Soon	TERMITES DETECTION SCENTKIT
SLK-BLANK1	\$69.95	\$99.95	"ZERO-ODOR" EXTINCTION TRAINING AID (AVAILABLE PRODUCT BUT EXTINCTION TRAINING NOT NEEDED FOR SCENTLOGIX PRODUCTS)
SLK-EMS	-	\$289.95	ELECTRONIC STORAGE MEDIA DETECTION SCENTKIT – FOR THE DETECTION OF HARD-DRIVES AND SIM CARDS
SLK-NS	-	\$169.99	K9 SCENT DETECTION PROFICIENCY SCENTKIT (BEHAVIOUR ASSESSMENT AID)
SLK-MP	-	\$289.95	MOBILE PHONES & CELLULAR DEVICES
SLK-CAD-C	-	\$849.95	MULTIPURPOSE (LAND/AIR/WATER) CADAVER DETECTION SCENTKIT

INDUSTRY #1: ONLY SCENTLOGIX™ GURANTEES K9 PERFORMANCE – FIND YOUR TARGET, IRRESPECTIVE OF WEIGHT, PURITY, MODE OF MANUFACTURE, OR COUNTRY OF OPERATIONAL TARGET PLACEMENT!

SCENTLOGIX™ SCENT-PRACTITIONER TRAINING ACECCESORIES

Our science-inspired, performance-proven imprint, maintenance-training, certification, and easy-mobility accessories cut down imprint time, bring portability to your program, and enhance your K9s training outcomes.

Item	Price	SCENTLOGIX SCENT-TRAINING ACCESSORIES
SLK-PB1	\$8.00	SCENTLOGIX™ IMPRINT AID PROTECTIVE BAGS (REUSABLE)
SLK-SB1	\$7.99	SCENTLOGIX™ ABOVE-GROUND STASH CAGES
SLK-SB2	\$12.95	SCENTLOGIX™ 360° BELOW-GROUND STASH TUBES
SLK-SB3	\$19.95	SCENTLOGIX™ MAGNETIC 360° ABOVE-GROUND STASH PIPES
SLK-VB1	\$4.95	SCENTLOGIX'S "K9-CERTIFIED" VAPOR-BARRIER AID-STORAGE BAG (REUSABLE)
SLK-SM	\$15.99	SCENTLOGIX™ SCENTFLOW-INDICATING SMOKESTICKS (24/pak)
SLK-CASE3	\$220.00	SML SCENTLOGIX™-DECALED WATERPROOF AND CRUSHPROOF HOLDING-CASE WITH RECORD ORGANISER W/O WHEELS (FOR HOLDING UP TO 5 SCENTKITS - SUITABLE FOR THE SSN100/SSN200/SSE100/SSE200 SERIES)
SLK-CASE2	\$260.00	MED SCENTLOGIX™-DECALED WATERPROOF AND CRUSHPROOF HOLDING-CASE WITH WHEELS, TRAINING RECORD/PROJECT ORGANISER FOR HOLDING UP TO 6 SCENTKITS - (RECOMMENDED FOR THE SSN100 - 300 & SSE100 - 300 SERIES)
SLK-CASE1	\$320.00	LRG SCENTLOGIX™-DECALED WATERPROOF AND CRUSHPROOF HOLDING-CASE WITH WHEELS & TRAINING RECORD/PROJECT ORGANISER FOR HOLDING UP TO 12 SCENTKITS (RECOMMENDED FOR THE SSE 400 SERIES)

DO YOU KNOW – our simple-looking protective bags are actually scientifically designed to protect your aid without contributing its odor, redistributing its odor, or filtering its odor,

The ScentLogix Scent & Odor Attenuating Kitset (SOAK™), for Soaks.

K9Logic - THE SCENTLOGIX™ APPROACH TO SCENT DETECTION

As the world's first standardized scent-detection ScentKit, ScentLogix™ allows you to start your training program with ability to tune both the quantity and the quality of your odor. Our research suggests that the best way to train dogs that can indiscriminately detect all weights of target is to start your imprinting and search-behavior training of your detector dogs using large amounts of pure target-odor. The odor output of a typical ScentLogix Odor-Reference Pouch is at least x80,000 higher than its nearest competitor. From odor plumes to scent tendrils, our aids bring your training proficiency to a guaranteed new level of consistency.

ScentLogix™ Odor Reference Pouch = Reference-Quality Odor = Pouch provides a large, consistent and constant flow of scent-reference odor. Main mechanism for odor/target discovery by K9 is via air scenting. Each ScentLogix Odor Reference Pouch Exceeds industry standards for imprinting, & maintenance training. Shelf-life Unopened = 8 years. Operational Life = Up to 2 years. Additive [Surface Area](#) of ScentLogix™ = 1/6th of a football field! Odor Intensity = at least x80,000 more potent than its closest competitor.

ScentLogix™ Soaks = ScentSoaks of Reference-Quality Odor = Disposable, intensity-tunable, time-limited use, soaks of reference odor. A "soak" generates low-intensity odor for a short duration. During this time, the scent initially exponentially increases in intensity, and then decreases back to zero. Main mechanism for scent/target discovery by K9 is search and sniff. A soak is an excellent complement for teaching search techniques & detailing of operational areas. Builds focus, odor understanding, and search endurance. Due our advantageous background in nanotechnology, a ScentLogix soak can have the typical odor output of the closest brand competitor!

A soak is a training sample that has been made by exposing an absorbent material (called a soak matrix) next to, but not in direct contact with, a scent-training aid, within a sealed container. The matrix becomes impregnated with the odor of the training material and can therefore be used on its own as a scent-training aid. It is important to note that soaks may not replicate the full odor of the original training material and are therefore not recommended for initial training or as the main component of continuation training. [Some \(not all\) useful information about how to produce and use soaks is available here.](#)

ScentLogix™ soaks are smaller intensities of the reference pouch odor which serve as building blocks of odor that provide an additive, quantifiable value of odor intensity, $a + a = 2a$. Using 4 cotton ball soaks has x4 the odor intensity of a one cotton ball soak, but the time of odor availability stays the same ($2a + 2a = 4a$). Mathematical equivalence is based on the surface area of the soak, which is always quantifiable, may it be a cotton pad, cotton ball or Q-tip heads. So, just as it is possible to break a 1-dollar bill into quarters, dimes, nickels and pennies, you can build your own odor-to-scent subunits, from your reference odor pouch, to suit your own training program. With a knowledge of odor intensity and duration of odor availability, your detection program advances from being qualitative to quantitative!

At last, ScentLogix™ is proud to bring scent standardization and quantification to your detection programs.

This is ScentLogix™, the Future of Scent Detection, Where Science Meets Practice!
